Summer 2024

Performance Report for Harbor Regional Center

Every year, the Department of Developmental Services (DDS) contracts with regional centers in California to serve individuals and families. And, every year DDS looks at how well the regional centers are doing. This report will give you information about your regional center.

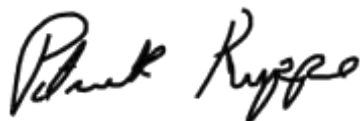

Last year, at Harbor Regional Center (HRC) we served about 17,930 individuals. The charts on page two tell you about the individuals we serve. You'll also see how well we are doing in meeting our goals and in fulfilling our contract with DDS.

At HRC, we want to improve every year, do better than the state average, and meet or exceed the DDS standard. As you can see in this report, we did well in supporting children in their family homes, supporting adults who choose to live in home settings, and reducing the number of adults who reside in a larger residential home. While we saw an increase in the number of individuals participating in competitive, integrated employment following their participation in a Paid Internship Program, as well as increases in annual wages for working adults, to increase the number and percentage of adults with earned income, we are strengthening ways to support adults to prepare for, find, and maintain employment.

We hope this report helps you learn more about HRC. If you have any questions or comments, please contact us!

Who uses HRC?

These charts tell you about who HRC individuals are and where they live.

How well is HRC performing?

This chart tells you five areas where DDS wants each regional center to keep improving.

The first column tells you how HRC was doing the last reporting period, and the second column shows how HRC was doing at the end of fiscal year 2024.

To see how HRC compares to the other regional centers in the state, compare the numbers to the state averages (in the shaded columns).

Regional Center Goals (based on Lanterman Act)	Last Reporting Period (December 2022)		Current Reporting Period (June 2024)
